

Arizona's Annual Health Literacy Conference 2021

“Pandemic: Response, Recovery, Resilience”

September 23, 2021 • 8 am – 3:30 pm (MST)

At this point in the pandemic, it is important to look back and reflect on the communication, health practices and the mental and physical health of our State. We experienced health care in ways like never before. We made changes, formed new practices, developed new roles and innovative ways to get people the care that they needed in ways that they could understand and act upon. Looking back and forward while making changes along the way, we developed practices that work to address the unique needs of all in Arizona. These are some of practices, along with national and global practices that will be shared during the **Arizona Health Literacy 2021 annual conference**.

This virtual conference is brought to Arizona by the **Institute for Healthcare Advancement** in collaboration with the Health Literacy Conference Workgroup – represented by [Molina Complete Healthcare](#), [Health Choice](#), [Maricopa County](#), and [Valleywise Health](#).

Topics:

- Border health
- Panel Discussion: Reflection and Shared Practices from a Pandemic
 - Outreach practices to reach underserved communities: Maricopa Department of Public Health and Faith-based presentation
 - Best practices reaching our refugee community
 - Wearing masks: Use in school system
- Tele-dentistry
- Panel Discussion: Impact of Social Isolation Across all Ages

Attendees:

- Public health professionals
- Professional and paraprofessionals working in healthcare system
- Providers, urgent care staff, and medical professionals
- Community Health Workers
- Communication specialists in healthcare
- Developers and administrators of healthcare programs and services

Objectives:

- Gain a greater understanding of border health and the practices to improve health care.
- Identify ways in which the pandemic brought new practices to healthcare, the underserved communities and people of color.
- Prepare for the health care of the future with the use of outreach practices, technology, new health care roles, procedures and practices to reach all Arizonans regardless of their culture, socio-economic status, and where they live.
- Discuss social isolation and its impact on mental/physical well-being and strategies, resources and tools to help build resilience.

Conference Cost: \$25
